Fire Administration, National Fire Data Center, 1992 OCLC Number: (OCoLC)77079972 Subject: Fire investigation -- Case studies. Excerpt: . . . USFA-TR-066 June 1992 5 AFTeR THE FIRE The fire took more than 45 minutes to bring under control. Firefighters said that at no time during their firefighting efforts were they made aware that many of the buildings occupants might still be inside. Shortly after the fire was under control, they began a search of the building and discovered that 10 of the buildings 17 occupants had died. The floor plan in Appendix A shows the locations of the victims. They were distributed throughout the building. The same number of victims was found on the east side as the west side and in the front part of the building as the rear. Eight of the victims were found on the second floor and two on the third floor. Post mortem examinations of the victims were performed at the Office of the Wayne County Medical Examiner. Although autopsies were not conducted, blood toxicology tests were performed, and each victim was examined to confirm the most likely cause of death. Toxicology reports indicate that all 10 victims died as a result of inhalation of smoke and toxic gases, and that none of the victims were intoxicated at the time of death. oCCUPAnTS Most occupants of this fatality became residents of one of the adult foster care facilities operated by Nu-Way Development Center after their release from State-run mental institutions prior to 1977. Newer occupants were often referred to the facility by operators of similar group homes or rooming houses. All of the residents received some form of public...
